

Call for Abstracts

Diagnostic & Interventional Radiology Case Reports is an international, triannual (every four months), peer-reviewed, open-access journal that aims to promote research in the field of Radiology. We are accepting case reports, case series, and clinical images for the first issue of the journal (October 2020 – January 2021). Please review the detailed instruction for manuscript submission guidelines in the “Instruction for Authors” section of the journal before submitting the paper.

Diagnostic & Interventional Radiology Case Reports is licensed under the Creative Commons-BY-NC-SA 4.0 International License.
